## REMARKABLE RANUNCULUS

Easy to grow *Ranunculus*

are perfectly carefree plants and will perform without fuss year in & year out.

Full sun or part shade, they are hardy & water-wise.

Plant in April, May, June for a Spring display.

Pointy end up, cover with 3-5 cm soil, and plant 5-10 cm apart.

They grow to 40-60cm high, with no lifting or chilling required.

***Ranunculus are a delightful addition to every garden!***
